

Report To: Board of Trustees
From: Warren Smith, Finance Director
Date: May 29, 2026
Subject: Proposed 2027-2032 Capital Improvement Plan (CIP)

In keeping with the Township's policies for long range financial planning, the Capital Improvement Plan (CIP) for the six-year period 2027-2032 is submitted for your review. This plan identifies anticipated capital expenditures of an estimated cost of \$10,000 or more for land, buildings, equipment, vehicles, and infrastructure.

The 2027-2032 CIP is a financial plan, not a budgetary authorization to expend funds. Actual expenditures for major capital projects are authorized by the Board through the annual operating budget and/or by award of construction and purchase contracts. The six-year capital plan provides the opportunity to identify and prioritize future capital projects and consider options for financing such projects, such as general operating funds, grants, borrowing, voted millage, etc. Not all projects' funding or financing options have been identified at this time.

The Township's CIP is reviewed and updated annually to reflect new projects, deleted projects, and any changes in estimated project costs or timing.

The proposed 2027-2032 CIP anticipates average estimated capital expenditures for the six-year period of \$7.2 million for general government operations and \$14.1 million for water and sewer enterprise operations.

Recommendation for Review and Approval

The Board is requested to review the plan and suggest or recommend any additions or changes at the June 4 Board meeting and then approve the proposed 2027-2032 CIP, as adjusted, at the July 16 Board meeting.

Capital projects planned for fiscal year 2027 will be included in the 2027 operating budget, which will be developed during the months of July and August. Some adjustments to the CIP may occur as the operating budget is being developed for Board approval in September.

Overview of 2027-2032 Capital Improvement Plan June 1, 2026

General Government Operations

- Projects are funded primarily by property tax revenues, state shared revenues, available grants and private contributions.
- Estimated expenditures for projects planned for the next 6 years total \$43.0 million or an average of \$7.2 million per year.
- FY2027 projects are estimated at \$9.0 million as compared to \$6.4 million for FY2026. Significant projects for 2026 and 2027 include:

	<u>2026</u>	<u>2027</u>
Road construction & resurfacing	\$1,100,000	\$1,100,000
Bike path system construction & resurfacing	1,536,000	1,063,000
Drain system improvements	1,321,000	1,650,000
Replace fire trucks & equipment, renovation	27,250	382,900
Fire/Sheriff station renovations		1,600,000
Parks improvements & maintenance	863,400	1,994,000

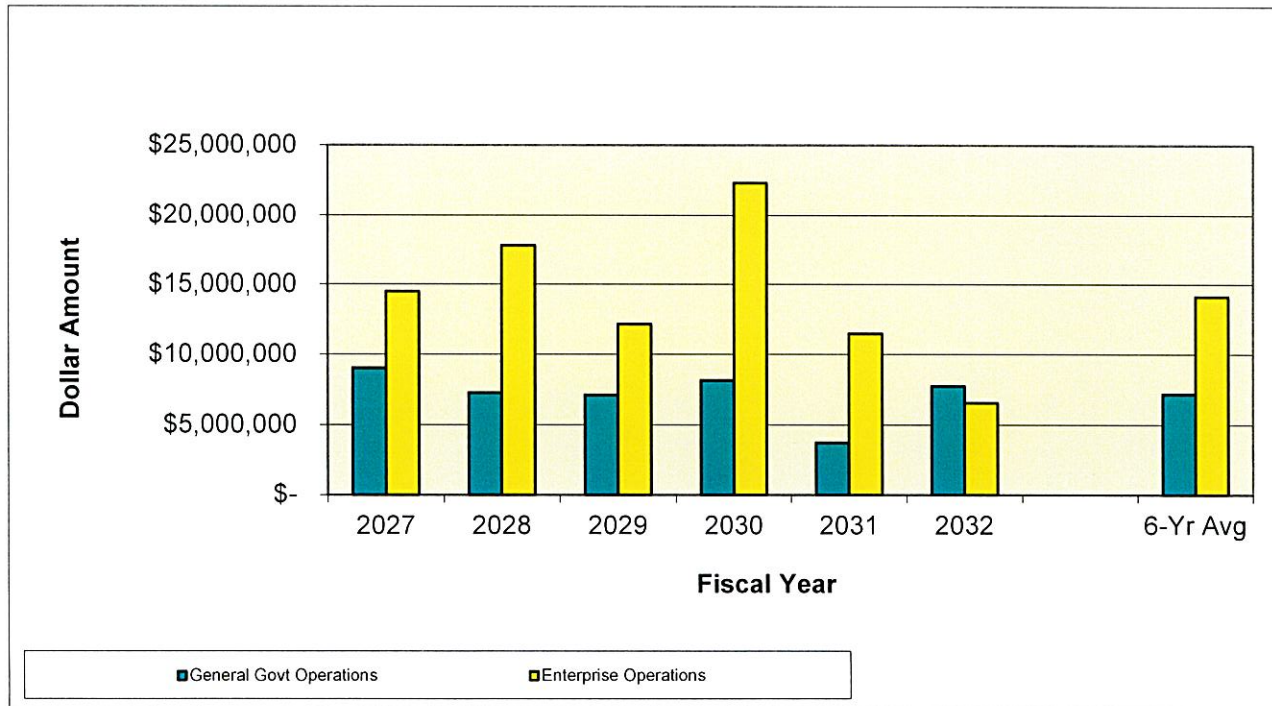

General government projects are summarized on page 2 of the CIP plan and supporting detail is provided on pages 3 – 11.

Water and Sewer Operations

- Projects are funded by user charges, special assessments, trunkage fees, and bonds.
- Estimated expenditures for projects planned for the next 6 years total \$84.7 million or an average of \$14.1 million per year.
- FY2027 projects are estimated at \$29.4 million (compared to \$27.5 million for FY2026).
- FY2026 and FY2027 includes \$8.4 million estimated for maintenance building renovations.
- Water and sewer projects are summarized on page 12.
- Replacement schedule for vehicles and equipment is on page 13.
- Timing of projects that relate to system expansion or capacity increase will change in keeping with the pace of development within the service area.
